

ALL INDIA INSTITUTE OF MEDICAL SCIENCES, RISHIKESH

presents

UTTARAKHAND CARDIABCON 2018

Cardio-Diabetes Update on Technology and Therapeutics of
Future(CUTTOF)

DIRECTOR'S MESSAGE:-

Dear Delegates,

I'm very happy to invite you to "UTTARAKHAND CARDIABCON 2018" at holy city Rishikesh. I'm sure it will be a magnificent amalgamation of science and spirituality. Currently India is world capital of Diabetes, other non-communicable diseases are also increasing at alarmingly high rate. Current conference is aimed at addressing diabetes and cardiac diseases, the deadly duo. Focus is to strengthen young budding doctors to tackle patients efficiently. Faculty of National and international repute shall be honoring conference with their expertise. Various quiz for resident doctors and hands-on training is unique in itself. Recent guidelines recommends glycemic control by "glycated hemoglobin - HbA1c", and not merely fasting and post prandial sugar values. Tight glycemic control (HbA1c <7 %) is recommended for newly diagnosed diabetics without complications and long life expectancy. For patients with long standing diabetes, short life expectancy, severe diabetes related complications, co morbidities, goal is to develop simple strategy focused on safety and avoidance of hypoglycemia. An understanding of newer technologies such as Insulin Pumps and Continuous Glucose Monitoring can help in providing a better care to the patients

Similarly there is a sea change in management of coronary artery disease. Wireless Pacemaker “MICRA TRANSCATHETER PACING SYSTEM (TPS)” are also recent innovations in the management of arrhythmias. Fractional Flow Reserve or FFR, is a guide wire based procedure that can specifically look into blood flow and pressure changes across a diseased vessel. Coronary angioplasty are now no more based on subjective visual assessment of cardiologist but on the objective assessment by FFR. Also the efficacy of Aspirin has been found to be almost worthless in recent times. This conference will address issues in these key areas.

Uttarakhand is better known as the God's abode. This is a land of Chardham viz. Badrinath, Kedarnath, Gangotri and Yamunotri .This part of country is blessed with heart touching beauty and rich cultural heritage. There are many attractions to Rishikesh both spiritual and adventurous. I on behalf of AIIMS family welcome you and ensure for a wonderful experience.

HOPE TO SEE YOU SOON AT RISHIKESH

Dr. RAVI KANT
DIRECTOR & CEO
AIIMS RISHIKESH

WORKSHOP- 23/11/2018

TIME	TOPIC
8:30 – 9:00 AM	REGISTRATION
9:00 – 10:00 AM	QUIZ ON ECG
10:00 – 12:00 PM	Workshop On Arterial Doppler / 4D Echocardiography
12:00 – 1:00 PM	Workshop on Cardiac Devices
1:00 – 2:00 PM	LUNCH
2:00 – 2:45 PM	Workshop on Insulin
2:45 – 3:30 PM	Workshop on Dietetics
3:30 – 4:15 PM	Workshop on Dialysis
4:15 – 5:00 PM	Quiz Results

CONFERENCE- 24/11/2018

8:00 – 9:00 AM	Platform Presentation / Diabetes Quiz
9:00 – 9:30 AM	Cardiodiabetes Management By Lifestyle: A Scientific Update
9:30 – 10:00 AM	INAGURATION
10:00 – 10.30 AM	Continuous Glucose Monitoring System
10:30 – 11:00 AM	Glycemic Outcome: Beyond HbA1C
11:00 – 11:30 AM	Emerging technologies: Beyond Insulin Pumps and CGM
11:30 – 12:00 PM	Controversies and Clinical Use of Newer OAD'S
12:00 – 12:30 PM	Reversible Heart Failure
12:30 – 1:00 PM	Acute Coronary Syndrome: An Update
1:00 – 1:30 PM	CAD In Elderly: A Therapeutic Dilemma
1:30 – 2:00 PM	Precision Nutrition In Case of Diabetes

• **FEES:-**

▪ RESIDENTS (Incudes Stay and Food)	2000/-
▪ FOR AIIMS RISHIKESH RESIDENTS	500/-
▪ DELEGATES	3000/-

LAST DATE OF ABSTRACT(Oral/ Poster) SUBMISSION – 15TH NOVEMBER, 2018.

KINDLY EMAIL US YOUR ABSTRAT – uttarakhandcradiabcon@gmail.com

Dr. Ravi Kant

Organizing Chairperson

Associate Professor,
AIIMS ,Rishikesh.

Dr. Minakshi Dhar

Co-Organizing Chairperson

Associate Professor,
AIIMS, Rishikesh

Dr. Monika Pathania

Organizing Secretary

Assistant Professor,
AIIMS, Rishikesh.

Dr. Mukesh Chand

Co-organizing Secretary

Assistant Professor,
AIIMS, Rishikesh.
