CALL FOR ABSTRACT

You are invited to submit an abstract for oral or poster presentation at “**International Symposium on Perioperative Nursing**”, from 26 to 27 February 2019.

THEME FOR ORAL OR POSTER PRESENTATION: Perioperative Nursing

When you prepare for submitting an abstract, please keep the following guidelines in mind:

General Information

1. **Note:** Peer reviewers will be using a rubric to review your abstract submission. See the symposium rubric for more information.
2. Completed work or projects may be submitted for either oral or poster presentation. If the work or project is not yet complete at the time of submission, the abstract may only be submitted as a poster presentation.
3. If successfully reviewed, final abstract acceptance will be conditional upon registration by the primary presenting author. He/she should register for the symposium along with Rs 500/- scientific oral / poster presentation fee.
4. The primary presenting author should be listed first in the order of authors. All communications will be directed to the primary presenting author only.
5. Abstracts which have been already presented or published earlier will not be accepted.

Guidelines for an abstract submission:

1. Abstract are to be submitted online only. (Email id: rishikeshaiims12@gmail.com)
2. Abstract and references should be submitted in English.
3. Abstract should not be more than of 300 (three hundreds) words (Excluding title and authors' information).
4. Abstract title, content and presentation focus should be original (not previously published or presented). We recognize that a study, project or work may yield multiple findings and subsequently several original publications or presentations. To be eligible to present, submissions must contain an original title, abstract text, and subsequent presentation content (i.e., different view, perspective, or focus).
5. **Submission Due Date:** Submit all abstracts no later than 5.00 p.m. on 10 February 2019.
6. An individual may submit more than one abstract; however, if successfully reviewed, only one oral and one poster submission will be accepted for presentation in a given category.
7. Abstract submissions that are incomplete after the submission deadline will not be eligible for presentation and will no longer be accessible by the authors.
8. Email confirmation of completed abstract submissions will be sent to the primary presenting author only upon receipt of the complete submission with registration transection receipt of Rs. 2500/-

All India Institute of Medical Sciences, Rishikesh (Uttarakhand)

College of Nursing/नर्सिंग महाविद्यालय

www.aiimsrishikesh.edu.in, e-mail:con.aiimsrishikesh@gmail.com

9. **Email notification of abstract acceptance** will be sent to the primary presenting author only approximately on or before **20 February 2019**.
10. Title of abstract will be of 15 (fifteen) words and must represent abstract contents.
11. Abstract should include study background, clear aim, methodology, major findings of study, conclusive statement and three to five key words related to study.
12. The title must be written in Times New Roman, bold, centrally aligned with font size-12 and text in Times New Roman with font size-11.
13. A maximum of six co-authors may submit a joint abstract and the primary presenting author's name should be written first. All updated information will be directed to the primary presenting author on his/ her e-mail.
14. Profile of presenting author must include: Name, Position title, Address, e-mail and Phone number.

NOTE:

1. **All decisions on abstract acceptance or rejection by scientific committee will be final and no further communication will be entertained in this regard.**
2. **Selected scientific oral presentations will be evaluated by experts and best oral presentations will get monetary award of Rs. 10,000/- (Ten Thousand).**

Abstract Rubric

**"International Symposium on Perioperative Nursing-
Enhancing Evidence Based Care in Operating Room"**

From 26 to 27 February 2019.

	Excellent-5	Good-4	Fair-3	Poor-2	Unacceptable-1
Abstract Title	Completed title; includes clear keywords found in the abstract text, provides accurate and clear insight into the content of the abstract.	Completed title; includes keywords found in the abstract text.	Satisfactory stated title; includes some keywords found in the abstract text.	Poorly stated given the abstract text.	Title appears unrelated to abstract text.
Content Outline	Exceptionally clear, focused, engaging content with relevant and strong supporting detail. Content supports event theme and objectives.	Clear, focused ideas with appropriate detail that relate to the associated event outcomes.	Unclear ideas due to lack of supporting details/generalizations/off-topic detail in relation to the associated event outcomes.	Purpose and main idea are unclear and cluttered by irrelevant detail. Topics to be covered are listed but not related to the associated event outcomes.	Not present. Lacks a central idea. Content is not related to event theme or objectives.
Actual Abstract Text	Sentences are clear, effective, and coherent. Abstract flows from one issue to the next. Writing demonstrates an understanding of the relationship among material obtained from all sources. The abstract provides a logical discussion, with substantial details, supporting the overall topic. No spelling errors noted. Dates of data collection identified when appropriate.	Word choice, sentence structure, and tone are successful at communicating the writer's intentions. Content ties information together from all sources. Writing demonstrates an understanding of the relationship among material obtained from all sources. The abstract provides a logical discussion, with adequate details, supporting the overall topic. No spelling errors noted.	Abstract does not demonstrate an understanding of the relationship among material obtained from all sources. Overall arrangement is logical but is occasionally difficult to follow. The abstract provides a logical discussion, with limited details, of the overall topic. One to two spelling errors noted.	Abstract is understandable but is marred by confusing, inappropriate sentences; word choice is inappropriate for the audience and topic. Abstract does not flow. Some spelling errors noted.	Noticeable portions of the abstract fail to convey the writer's point. Does not tie together information. Abstract does not flow. The abstract does not provide a logical discussion of the overall topic. Multiple spelling errors noted throughout. Dates of data collection are not identified.
Evaluation Process	The evaluation process reflects valid and reliable methods and outcome measures and is clearly expressed. Findings have clear implications for nursing science, patient outcomes, nursing practice, education, administration, leadership, and/or policy making.	The evaluation process reflects reliable methods and outcome measures. Findings may have implications for nursing science, patient outcomes, nursing practice, education, administration, leadership, and/or policy making.	The evaluation process reflects some reliable methods and outcome measures; however, this is not clearly expressed. Findings have no defined implications for nursing science, patient outcomes, nursing practice, education, administration,	The evaluation process does not reflect methods or outcome measures or is not clearly expressed. Findings have no defined implications for nursing science, patient outcomes, nursing practice, education, administration,	The evaluation process is unclear, missing, or inappropriate. If this is a poster presentation, rate evaluation as "Excellent" unless a process is discussed.

	If this is a poster presentation, rate evaluation as "Excellent" unless a process is discussed.	If this is a poster presentation, rate evaluation as "Excellent" unless a process is discussed.	leadership, and/or policy making. If this is a poster presentation, rate evaluation as "Excellent" unless a process is discussed.	leadership, and/or policy making. If this is a poster presentation, rate evaluation as "Excellent" unless a process is discussed.	
Abstract Submission Guidelines for Deidentification Followed	YES- Removed all references to the title and author information on the abstract before completing the submission.	N/A	N/A	N/A	NO- Did not remove all references to the title and author information on the abstract before completing the submission.
References-number/type	Includes at least six scholarly references (e.g., science journal articles, books). Clear, consistent format (i.e. APA, Harvard, MLA, etc.) with less than one error.	Includes at least five scholarly references (e.g., science journal articles, books). Clear, consistent format (i.e. APA, Harvard, MLA, etc.) with few errors.	Includes at least four scholarly references (e.g., science journal articles, books). Consistent format (i.e. APA, Harvard, MLA, etc.) with errors.	Includes at least three scholarly references (e.g., science journal articles, books). Format is inconsistent and with (i.e. APA, Harvard, MLA, etc.) significant errors.	Absent or fewer than three references. The majority are not scholarly references.
References-appropriateness/timeliness	All references are recent and/or appropriate for the abstract (references should be no older than 5 years, unless they are a seminal work).	Most references are recent and/or appropriate for the abstract (references should be no older than 5 years, unless they are a seminal work).	Some references are recent and/or appropriate for the abstract.	Few references are recent and/or appropriate for the abstract.	Absent or the majority are not appropriate for the abstract.
