Corrigendum

Date- 31/07/2026

Tender enquiry: 24/Neurosurgery/Hand instruments / 888/ 2026-RISH (ADMN)

Tender Name: Procurement of Hand Instruments consisting of Craniotomy Set, Spine Set and Trans-Sphenoidal Set for Department of Neurosurgery, AIIMS Rishikesh.

With reference to the above-mentioned tender, the following clarifications are issued and shall form an integral part of the tender document:

1. Clarification regarding evaluation of bids (L1):

During the Pre-Bid Meeting, bidders raised a query that not every bidder manufactures all three sets, namely:

- Set-1: Craniotomy Set
- Set-2: Spine Set
- Set-3: Trans Sphenoidal Set

In this regard, it is clarified that, as per **Point No. 18 of the General Specifications of the NIT**, a bidder may quote for **one or all of the sets**.

Accordingly, **the L1 bidder shall be evaluated and determined independently for each set**, based on the BOQ uploaded on the portal and the financial bids received for the respective set.

2. Clarification regarding specifications of Set-3 (Trans Sphenoidal Set):

A representation has been received from a prospective bidder requesting modification of the specifications of **Set-3 (Trans Sphenoidal Set)** on the ground that the instruments are manufactured by a limited number of companies.

In this regard, it is clarified that **Point No. 13 of the General Specifications of the NIT** already provides that:

"Instruments not exactly as per the description asked by us, but having similar functionality, will also be considered."

Therefore, bidders may quote equivalent instruments having similar functionality. **No modification in the specifications is being made at this stage**, and all other terms and conditions of the tender shall remain unchanged.

All other terms and conditions of the tender shall remain unaltered.
