To Whom It May Concern:

30th August 2023

Sub: - Proprietary Certificate

Dear Sir/ Madam,

This letter is to confirm that the HEPA Bulle - product is exclusively manufactured and a proprietary product of Airinspace SE in France.

No other company is permitted to manufacture or use the registered trademark for this equipment in any way whatsoever.

The HEPA Bulle is a unique process of particulate air filtration which uses a ceiling-mounted position to deliver ISO5 air quality in a reverse Coanda pattern across 360° to ensure whole room air treatment and reduce the risk of cross-infection.

The design incorporates 4 HEPA H14 filters which comprise PTFE to provide up to 3 years of continual filtration without reduction in performance.

The HEPA Bulle design and rights remain the property of Airinspace SE under worldwide protection.

Yours faithfully,

S. CHATENET CEO
