Reference: PulmoVista 500

PROPRIETARY CERTIFICATE**Oct 11th, 2021**

Draeger India Pvt. Ltd, having their registered office at 10th Floor, Commerz 2, International Business Park, Oberoi Garden City, Off Western Express Highway, Goregaon East, Mumbai, Maharashtra 400063, India, is the direct subsidiary of Drägerwerk AG & Co. KGaA. In India, Draeger India Pvt. Ltd is a sole seller of PulmoVista 500, part number 8420000, and its listed accessories.

Drägerwerk AG & Co. KGaA, Lübeck, Germany, is the manufacturer of PulmoVista 500.

PulmoVista 500 is the world's only electrical impedance tomograph (EIT), which displays and quantifies both regional information on ventilation-related changes of air content, changes of end-expiratory lung volume, the delay of regional ventilation, esophageal and transpulmonary pressure. This information has proved to be helpful for detecting regional adverse lung conditions (such as lung collapse, lung overdistension and cyclic opening and closing) and excessive transpulmonary pressures and for adjusting lung-protective settings of mechanical ventilators accordingly.

This is to certify that, that PulmoVista 500 is a stand-alone device specially designed for use in clinical routine for adult and pediatric patients (minimum tidal volume 50ml). PulmoVista 500 is a proprietary product. Drägerwerk AG & Co. KGaA is the sole manufacturer of this kind of product with the specifications as listed in our product brochures and as granted by our Instructions for Use. Also, Draeger India Pvt. Ltd is the sole seller of a commercial EIT device for lung monitoring in India and Peninsula (Bangladesh, Bhutan, Nepal, Sri Lanka and Maldives).

Best regards

Eckhard Teschner
