7	30 degree hand piece tip	5	₹8,376/-	₹ 41,880/-
				₹ 9,24,270/-
<b>Grand Total</b>		<b>Rupees Nine Lakh Twenty-Four Thousand Two Hundred Seventy only</b>		

3. **For equipment, please provide the following information**

Detailed description of the actual use of the equipment

Is the equipment to be used for patient care of research: **Patient Care & Diagnostics**

Both, patient care and of time to be used for research

58166/2024/226

Is this/ similar equipment already available in the department?

When purchased? 14/09/2023 Cost at that time: ₹ 14,78,747/- Present functional status: Functional

Tests/ procedures done on this equipment in last year:

Revenue generated by this equipment in last year:

If yes, what is the justification for this purchase?

Is this/similar equipment available in any other department in the Institute?

If yes, what is the justification for this purchase?

4. For Consumables, please provide following information:

Description of stocks available

When was it last purchased? In what quantity? Cost;

Source

Test/ procedures done in this period:

Revenue generated in this period:

Average annual consumption

Shelf life

Period for which this purchase will last Number of tests likely to be done with this quantity:

5. For furniture, please provide the following information:

Exact location and use

Existing furniture at that place

Justification for this purchase

Possible sources (name all sources you know) from where item may be obtained (name, address, phone no, fax no, email, etc of contact person)

## P-3 FORM

(to be attached with P-2 form for Proprietary items)

AIIMS Rishikesh

## PROPRIETARY ARTICLE CERTIFICATE

It is certified that the items (Consumables of Phacoemulsification Machine Alcon) required in the P-2 form should be purchased from M/s. Siyaram's chemist. To the best of my knowledge M/s. Siyaram's chemist are the sole manufacturer/agents of the sole manufacturers M/s. Alcon Laboratories (India) Pvt. Ltd.

Similar items manufactured by other firm(s) shall not be suitable for our purpose for the following reasons:-

These are proprietary consumables items manufactured by the above mentioned firm only. These are urgently required for smooth functioning of ophthalmic O.T.

### Technical specification of Consumable items for Infinity Phacoemulsification

1. **Infinity FMS Pack:** FMS stands for Fluid Management System. This pack likely includes essential components for maintaining a stable and controlled fluid environment during the surgery, crucial for maintaining visibility and facilitating the procedure.
2. **Infinity Anterior Vitrectomy Pak:** This pack is likely designed for anterior vitrectomy procedures, which involve removing the vitreous gel from the front portion of the eye. It may contain specialized instruments and accessories required for this specific aspect of the surgery.
3. **Ultra Sleeve 09.mm:** This could be a protective sleeve or cover with a diameter of 0.9 mm, designed to fit over certain instruments or components during surgery. It helps maintain sterility and may serve as a barrier to prevent damage or contamination.
4. **Phaco IA Bimanual Cannula :** This refers to the irrigation and aspiration (IA) cannula used in bimanual phacoemulsification. Bimanual means the use of two separate instruments for irrigation and aspiration during the surgery.
5. **Bipolar Cautery Cable:** Bipolar cautery is often used in eye surgery to coagulate small blood vessels or tissues. The cable likely connects the bipolar cautery device to the power source.
6. **45 Degree Hand Piece Tip:** This is a specialized handpiece tip with a 45-degree angle. Hand pieces are commonly used in phacoemulsification procedures to deliver ultrasonic energy for breaking up and removing cataracts.
7. **30 Degree Hand Piece Tip:** Similar to the 45-degree handpiece tip, this is another variant with a 30-degree angle. The choice between these tips depends on the surgeon's preference and the specific requirements of the surgery.
