INTRODUCTION

An Act of Parliament in 2012 established the All India Institute of Medical Sciences (AIIMS) Rishikesh as an autonomous institution of national importance and defined its objectives and functions. By virtue of this Act, the Institute grants its own medical degrees and other academic distinctions. The degrees granted by the Institute under the All India Institute of Medical Sciences Act are recognized medical qualifications for the purpose of the Indian Medical Council Act and notwithstanding anything contained therein, are deemed to be included in the first schedule of that Act, entitling the holders to the same privileges as those attached to the equivalent awards from the recognized Universities of India.

AIMS & OBJECTIVES

In the field of Postgraduate Education, the most essential function of the Institute is to provide opportunities for training teachers for medical colleges in the country in an atmosphere of research and enquiry. The postgraduate students are exposed to the newer methods of teaching and given opportunities to actively participate in teaching exercises. The other important objectives of the Institute are to bring together in one place educational facilities of the highest order for the training of personnel in all the important branches of health activity and to attain self-sufficiency in under graduate & postgraduate medical education. The educational principles and practices being adopted are those which are best suited to the needs of the nation.

AIMS & OBJECTIVE OF THE INDIVIDUAL COURSE

1. M.Sc. MEDICAL BIOCHEMISTRY

The objective of the Masters Course in Biochemistry is to impart training in basic and advanced biochemistry, molecular biology, immunology and clinical biochemistry. The students also get an opportunity to carry out a research dissertation in any of the following areas: biochemistry and molecular biology of normal function and disease process including infectious diseases, tumor biology and cardiovascular diseases; neurochemistry; cell growth, differentiation and cell death; regulation of cellular function and gene expression; reproductive biology; molecular modelling; basic and applied immunology; recombinant DNA technology and environmental biochemistry.

2. M.Sc. MEDICAL PHYSIOLOGY

The candidates admitted for M.Sc. Physiology at AIIMS will be trained in all branches of Physiology. They will be given theoretical and practical training in Physiology in such a way that they will be able to pursue a career as a teacher in Physiology for medical and science students. The thesis work which the candidates would carry out as partial fulfilment for degree, will give them training to pursue a career in research. The student will have option to select any branch of Physiology for their thesis work.

3. M.Sc. MEDICAL PHARMACOLOGY

Master's degree in Pharmacology encompasses an intensive curricular activity which includes lectures/seminars on basic and advanced pharmacology and toxicology, experimental and clinical pharmacological research involving modern instruments and techniques. The broad research areas include: cardiovascular pharmacology, neuropharmacology, toxicology, ocular pharmacology, drug delivery system, gastrointestinal pharmacology, pharmacokinetic studies, natural products, cancer chemotherapy, molecular pharmacology and other related areas. Students are required to undertake a thesis work under the supervision of a departmental faculty member and to participate in different curricular programs assigned to them in the department. On successful completion, the course degrees help the students in securing admission for higher studies both in India and abroad. It also provides them excellent job opportunities to secure a position in drug industry, academic institutions and drug regulating agencies.

4. M.Sc. PERFUSION TECHNOLOGY

Masters in Perfusion Technology is aimed at training student to acquire in-depth knowledge about Cardiology, Cardiac Surgery, Introduction to OT and Perfusion Technology, Equipment in Perfusion Technology and Physiology and Pathology of Perfusion, Pharmacology and cardiovascular drugs, Clinical Application of Perfusion Technology, Cardiac Surgery without CPB Machine, Circulatory support and Robotic Cardiac Surgery, Organ Transplantation, Hematology relevant to Perfusion, Blood Transfusion and Blood Conservation.
