

VRmagic GmbH – Turley-Str. 20 – 68167 Mannheim – Germany

To Whom It May Concern

March 1st, 2019

Confirmation of proprietary technology and sole source

Dear Madam or Sir,

VRmagic GmbH, Mannheim, Germany, is the manufacturer of the following products:

Eyesi Surgical Simulator
Eyesi Indirect Ophthalmoscope Simulator
Eyesi Direct Ophthalmoscope Simulator
Earsi Otoscope Simulator

All VRmagic Simulators are developed by VRmagic GmbH and are based on proprietary technology. All VRmagic products are made in Germany. To the best of our knowledge, at present there are no comparable products available in the market that allow the training of cataract and vitreo-retinal surgeries, the advancement of ophthalmic diagnostic skills or the training of ear examinations like the VRmagic Simulators do. VRmagic GmbH and their local distributors are the sole source for all VRmagic Simulators.

In North-, Central- and South America, all commercial activities related to sales and service of the Eyesi Simulators are handled by VRmagic Inc., a direct and 100% subsidiary of the VRmagic corporate group.

Sincerely,

VRmagic GmbH
