**Confirmation of proprietary technology and sole source**

Dear Madam or Sir,

VRmagic GmbH, Mannheim, Germany, is the manufacturer of the following products:

- Eyesi Surgical Simulator**
- Eyesi Indirect Ophthalmoscope Simulator**
- Eyesi Direct Ophthalmoscope Simulator**
- Earsi Otoscope Simulator**

All VRmagic Simulators are developed by VRmagic GmbH and are based on proprietary technology. All VRmagic products are made in Germany. To the best of our knowledge, at present there are no comparable products available in the market that allow the training of cataract and vitreo-retinal surgeries, the advancement of ophthalmic diagnostic skills or the training of ear examinations like the VRmagic Simulators do. VRmagic GmbH and their local distributors are the sole source for all VRmagic Simulators.

In North-, Central- and South America, all commercial activities related to sales and service of the Eyesi Simulators are handled by VRmagic Inc., a direct and 100% subsidiary of the VRmagic corporate group.

Sincerely,  
VRmagic GmbH

  
Dr. Markus Schill  
CEO
