Instructions for Online Bid Submission:

The bidders are required to submit soft copies of their bids electronically on the CPP Portal, using valid Digital Signature Certificates. The instructions given below are meant to assist the bidders in registering on the CPP Portal, prepare their bids in accordance with the requirements and submitting their bids online on the CPP Portal.

More information useful for submitting online bids on the CPP Portal may be obtained at: https://eprocure.gov.in/eprocure/app.

REGISTRATION

- Bidders are required to enrol on the e-Procurement module of the Central Public Procurement Portal (URL: https://eprocure.gov.in/eprocure/app) by clicking on the link “Online bidder Enrolment” on the CPP Portal which is free of charge.

- As part of the enrolment process, the bidders will be required to choose a unique username and assign a password for their accounts.

- Bidders are advised to register their valid email address and mobile numbers as part of the registration process. These would be used for any communication from the CPP Portal.

- Upon enrolment, the bidders will be required to register their valid Digital Signature Certificate issued by any Certifying Authority recognized by CCA India (e.g. Sify / nCode / eMudhra etc.), with their profile.

- Only one valid DSC should be registered by a bidder. Please note that the bidders are responsible to ensure that they do not lend their DSC’s to others which may lead to misuse.

- Bidder then logs in to the site through the secured log-in by entering their user ID / password and the password of the DSC / e-Token.

SEARCHING FOR TENDER DOCUMENTS

- There are various search options built in the CPP Portal, to facilitate bidders to search active tenders by several parameters. These parameters could include Tender ID, Organization Name, Location, Date, Value, etc. There is also an option of advanced search for tenders, wherein the bidders may combine a number of search parameters such as Organization Name, Form of Contract, Location, Date, Other keywords etc. to search for a tender published on the CPP Portal.

- Once the bidders have selected the tenders they are interested in, they may download the required documents / tender schedules. These tenders can be moved to the respective ‘My Tenders’ folder. This would enable the CPP Portal to intimate the bidders through SMS / email in case there is any corrigendum issued to the tender document.

- The bidder should make a note of the unique Tender ID assigned to each tender, in case they want to obtain any clarification / help from the Helpdesk.
PREPARATION OF BIDS

- Bidder should take into account any corrigendum published on the tender document before submitting their bids.

- Please go through the tender advertisement and the tender document carefully to understand the documents required to be submitted as part of the bid.

- Please note the Number of covers in which the bid documents have to be submitted, the number of documents - including the names and content of each of the document that need to be submitted. Any deviations from these may lead to rejection of the bid.

- Bidder, in advance, should get ready the bid documents to be submitted as indicated in the tender document / schedule and generally, they can be in PDF / XLS / RAR / DWF/JPG Tender No. :.................................................. Formats. Bid documents may be scanned with 100 dpi with black and white option which helps in reducing size of the scanned document.

- To avoid the time and effort required in uploading the same set of standard documents which are required to be submitted as a part of every bid, a provision of uploading such standard documents (e.g. PAN card copy, annual reports, auditor certificates etc.) has been provided to the bidders. Bidders can use “My Space” or “Other Important Documents” area available to them to upload such documents. These documents may be directly submitted from the “My Space” area while submitting a bid, and need not be uploaded again and again. This will lead to a reduction in the time required for bid submission process.

SUBMISSION OF BIDS

- Bidder should log into the site well in advance for bid submission so that they can upload the bid in time i.e. on or before the bid submission time. Bidder will be responsible for any delay due to other issues.

- The bidder has to digitally sign and upload the required bid documents one by one as indicated in the tender document.

- Bidder has to select the payment option as “offline” to pay the tender fee / EMD as applicable and enter details of the instrument.

- Bidder should prepare the EMD as per the instructions specified in the tender document. The original should be posted/couriered/given in person to the concerned official, latest by the last date of bid submission or as specified in the tender documents. The details of the DD/any other accepted instrument, physically sent, should tally with the details available in the scanned copy and the data entered during bid submission time. Otherwise the uploaded bid will be rejected.

- Bidders are requested to note that they should necessarily submit their financial bids in the format provided and no other format is acceptable. If the price bid has been given as a standard BoQ format with the tender document, then the same is to be downloaded and to be filled by all the bidders. Bidders are required to download the BoQ file, open it and complete the white coloured (unprotected) cells with their respective financial quotes and other details (such as name of the
bidder). No other cells should be changed. Once the details have been completed, the bidder should save it and submit it online, without changing the filename. If the BoQ file is found to be modified by the bidder, the bid will be rejected.

- The server time (which is displayed on the bidders’ dashboard) will be considered as the standard time for referencing the deadlines for submission of the bids by the bidders, opening of bids etc. The bidders should follow this time during bid submission.

- The documents being submitted by the bidders would be encrypted using PKI encryption all techniques to ensure the secrecy of the data. The data entered cannot be viewed by unauthorized persons until the time of bid opening. The confidentiality of the bids is maintained using the secured Socket Layer 128-bit encryption technology. Data storage encryption of sensitive fields is done. Any bid document that is uploaded to the server is subjected to symmetric encryption using a system generated symmetric key.

- Further this key is subjected to asymmetric encryption using buyers/bid opener’s public keys. Overall, the uploaded tender documents become readable only after the tender opening by the authorized bid openers.

- The uploaded tender documents become readable only after the tender opening by the authorized bid openers.

- Upon the successful and timely submission of bids (i.e. after Clicking “Freeze Bid Submission” in the portal), the portal will give a successful bid submission message & a bid Tender No. ............ Summary will be displayed with the bid no. and the date & time of submission of the bid with all other relevant details.

- The bid summary has to be printed and kept as an acknowledgement of the submission of the bid. This acknowledgement may be used as an entry pass for any bid opening meetings.

**ASSISTANCE TO BIDDERS**

- Any queries relating to the tender document and the terms and conditions contained therein should be addressed to the Tender Inviting Authority for a tender or the relevant contact person indicated in the tender.

Specification for Heart Lung Machine with TCM

1. The system should work on 220V/50Hz, single phase AC.
2. Machine should have internal rechargeable batteries.
3. Batteries should be capable of providing power to the fully loaded system for minimum 60 minutes.
4. Two unidirectional hand cranks should be available as an additional critical safety feature.
5. Five roller pumps should be available in 3 large and 2 small raceways for adult and pediatric patients. The pump should be controlled from the central control monitor and from the pump itself and all the pumps should be inter changeable. The small pump should be able to incorporate tubing sizes ¼” and 3/8”.
6. The base should provide at least 5 dedicated connections for the pumps, which can be mounted on the base or on the pole close to the surgical field to minimize tubing lengths and also the floor space. There should be option for selection of desired number of pumps. (Dual pump will be counted as only one pump).
7. Pump should display tube size, RPM rotation directions, speed flow rate, safety, status and error message.
8. Facility of monitoring all patient parameters; pumps status, patient information entered or system setting should be available on the touch screen of the central control monitor. One touch should provide any menu on the screen.
9. The screen should automatically change if any alarm condition arises thus altering the Perfusionist to take immediate remedial action. Important patient parameters should remain displayed.
10. The central control monitor should be able to configure 10-14 different perfusion screens for different equipment setups and perfusion protocol setups.
11. For interface between an appropriate type of sensor or device and the system, modules should be provided which are easily changeable. Minimum 10 slots for such modules should be available.
12. There should be facility to adjust occlusion on running-pump.
13. A gas blender should be provided.
14. There should be option for pulsatile flow operation.
15. Facility should exist such that any pump can be designated as Arterial or Cardioplegia pump.
16. Facility for setting Cardioplegia volume, dose delivery and time on the Central Control Monitor should be available.
17. There should be option for master follower operation for multidose cardioplegia.
18. Each roller pump should have magnetic interlock switch so that pump operates only when pump is controlled to protect against pump jam.
19. Should have self-adjusting tube-size clamp
20. The temperature control system should operate on 220V/50Hz single-phase supply.
21. Should be capable of rapidly providing hot and cold water for heat exchanger system in CPB machine and also for delivery of controlled-temperature-cardioplegia.
22. The control system for water bath should be microprocessor based. The range of available temperature setting should be 4-42 degrees Celsius and visible as digital display. Incremental control of temperature by each 1 degree Celsius should be available.
23. TCM should have separate port for supplying temperature-controlled water to the patient blanket.
24. The hot water circulating system should have a reservoir capacity of 5-6 litres and cold system reservoir capacity should be 7-8 litres.
25. Heat exchanger supply port should have a minimum supply of 15.0 l/min for highly responsive fast cooling & rewarming.
26. TCM system should have separate ports to drain water from the cold and hot tanks.
27. The company should quote a price for buy back of the existing machine (one) on an ‘as is where is’ basis including physical shifting of the machine.
28. It should have valid quality certification.

General Conditions applicable to each tendered equipment:

1. There would be guarantee (with spares) for five years and additional warranty for five years.
2. The product should be quoted with all the accessories. The price of all the accessories should also be quoted separately.
3. The price of major spares parts should be quoted separately. The price would be fixed for the warranty period.
4. The product or its earlier model should have been marketed in the national and international market for at least 10 years.
5. The parent company should certify that the quoted product is not going to be out of assembly line for at least three years from date of quotation.
6. The parent company should give the undertaking to provide the spares during the warranty period, if required.
7. If the equipment is software based, and new software is introduced within five years, the upgradation will be provided free of cost.
8. The department may ask for demonstration of actual quoted product or even for trial use.
9. If necessary, training of the personnel for the use of the equipment will be provided by the company vendor.
10. Compliance Statement: The vendor must provide, in tabular form a comparative chart of the required technical specification and technical specification of the quoted product. The vendor must give the relevant page number and paragraph number, in their literature regarding that technical information in the technical bid. Merely stating “complies” or meets requirement” will lead to assumption that the quoted product does not have the required feature.
